

ARTIFICIAL INTELLIGENCE (AI) & MACHINE LEARNING (ML) IN CYBER SECURITY

IBM India Software Labs (ISL) and Pune Knowledge Cluster (PKC) jointly present an online course that will empower you to become a Security Intelligence Professional. The course will:

- Enable the participants in consolidating event logs and packets of data from network/different end-points to detect, identify and respond to threats.
- Introduce the participants to IBM's industry-leading Security Intelligence solutions viz. IBM QRadar SIEM and Cloud Pak for Security (CP4S).
- Equip the participants to complete self-paced learnings and apply for different digital accreditations provided by IBM's Advanced Security Learning Academy.

WHEN : Course commences on : 28th February 2022
Course ends on : 4th April 2022
Time: 4:00 to 5:30 pm (Every Monday and Thursday)

WHERE : Online Platform (11 sessions)
