

Pune Knowledge Cluster presents

Title: Future of Diagnostics

Organized By	Pune Knowledge Cluster (PKC)
Date	8 th December 2022
Time	4:00 to 5:00 pm IST
Location	Online
Description of the talk series	PKC's Health talk series aims to promote active discussions on mapping, tracking, mitigation, and understanding the impact of diseases at a city level. The series hosts talks, stakeholder meetings, and workshops to highlight health issues that plague the city and potential measures for their mitigation. It will also showcase research, and clinical and technological advances in the healthcare ecosystem.
Abstract	It is critical to ensure that innovative diagnostics are available, accessible, and adoptable. Countries should have measures and systems in place to integrate diagnostics into markets and health systems, and create quality assurance programs to support their use. Partnerships are important to ensure that diagnostic tools are deployed as part of an integrated and effective health system to guide patient care and public health programs. The speaker will talk about initiatives at PATH where they design and test robust, easy - to - use, and purpose - built diagnostic tools in the lab and on field, and advocate for policies that make new diagnostic technologies sustainable around the world.
For whom (Target Audience)	B.Sc./ M.Sc./Ph. D Students /Community medicine/Professionals/ Public Health etc....Its free and open to all.
Potential Gains	The speaker will provide insight on incorporating innovative diagnostic technologies into market and health system to guide patient care & Public health systems.

About the Organizer

The Pune Knowledge Cluster (PKC) has been established by the Office of the Principal Scientific Adviser to the Government of India. It aims to bring together academia, R&D institutions, and the industry of Pune and its surrounding areas, to address the challenging problems of the region through innovative means, using scientific knowledge and engaging highly skilled human resources.

PKC is administered by the Inter-University Centre for Astronomy and Astrophysics (IUCAA). In the initial phase, PKC would focus on Health, Sustainability and Environment, Sustainable Mobility, BIG Data and AI and Capacity Building
