# RESURGENCE OF COVID-19

In view of the sudden spurt in COVID-19 cases in some countries, India is considering adequate measures to mitigate the spread of infections.

According to experts, India is well-equipped to deal with a possible outbreak. There is no need to panic, considering the vaccine coverage and hybrid immunity, especially in the adult population in the country. The resurgence of COVID-19 in some countries, and the steps which have to be taken to keep the situation under control in India, need to be understood by the public.

Pune Knowledge Cluster (PKC), in collaboration with National Centre for Cell Science (NCCS), Pune, has arranged an interactive bilingual session, in Marathi and English, open for the public to help with the understanding.

## SPEAKERS

### Dr. Shekhar Mande

Distinguished Professor,  
Bioinformatics Centre of SPPU,  
Former Director General CSIR,  
Former Director - National Centre  
for Cell Science (NCCS)

### Dr. Arvind Sahu

Scientist G,  
National Centre for Cell Science  
(NCCS)

### DATE

**Sunday,  
15th Jan. 2023**

### TIME

**10:30 am to  
11:30 am (IST)**

### Venue:

**NCCS Auditorium**  
NCCS Complex, SPPU Campus,  
Pune, Maharashtra - 411007
