MISCONCEPTIONS IN MATHEMATICS

Who can attend: Teachers teaching mathematics (6th to 10th grades)

Date: 27th March 2023

Day: Monday

Time: 4:00pm to 5:30pm (IST)

Ms Shanti will be discussing various strategies that will be useful for the teachers to tackle the major challenge of handling misconceptions.

Shanti Pise

Principal Technical Officer,
Indian Institute of Science
Education and Research (IISER),
Pune

Shanti is an outreach enthusiast and a creative teacher educator with a passion to implement innovative ideas to bring a positive change in the education system. She is keen to develop creative, realistic, and unique practices of teaching that enables teachers and students to enhance their learning. She has over 17 years of teaching experience at various levels right from primary through college level- teacher education. She has conceived, developed and implemented capacity building programmes for STEM teachers across India. Apart from that she is a passionate dancer, yoga instructor and a mathematics teacher at heart integrating hands-on minds-on approaches.
