

Study Tour to Vasantdada Sugar Institute, Pune

Under Pune Knowledge Cluster's LEAD (Learn, Explore, Access & Discover) initiative, we organised a study tour to **Vasantdada Sugar Institute, Pune (VSI)** on Wednesday, 19 July 2023. We received more than 40 registrations out of which 14 students were shortlisted based on PKC's selection criteria.

As a part of the study tour, students got introduced to the approach and functioning of VSI, through an in-depth visit to the different departments of VSI- Alcohol Technology, Molecular Biology, Tissue Culture and Soil Science. Apart from this, the tour also gave students an opportunity to interact with the experts and learn about the different career opportunities at VSI. We would like to thank all the organizers and the staff at VSI for collaborating with us in making this educational tour successful.
