

NEP ROADMAP

FROM CONCEPT TO PRACTICE

The National Education Policy (NEP) of 2020 is a transformative framework for the educational landscape in India. While the policy primarily targets systemic changes, this abstract focuses on the role of teachers in its implementation and ways of implementing the NEP.

The NEP 2020 aims to create a holistic and inclusive educational system that nurtures critical thinking, creativity, and lifelong learning.

It emphasizes the importance of teachers as the backbone of this transformation, recognizing them as crucial agents of change.

The policy outlines several key changes relevant to teachers:

- 📍 Pedagogical shifts
- 📍 Professional development opportunities
- 📍 Focus on multidisciplinary teaching

Teachers will play a pivotal role in implementing the NEP 2020 by adapting their teaching methods to encourage experiential and multidisciplinary learning. Continuous professional development is a cornerstone of the NEP, and teachers are encouraged to embrace opportunities for upskilling, research, and innovation.

Thursday
30th November 2023
04:00 PM - 05:30 PM (IST)
