

## Pune Knowledge Cluster

present conversations with

# WOMEN ROLE MODELS IN STEM

**DR. RAJESHWARI SINHA**

Programme Manager, Sustainable Food Systems  
Unit, Centre for Science and Environment  
(CSE), New Delhi

# EXPLORING UNCHARTED WATERS IN THE STEM SPACE

*Dr. Rajeshwari Sinha works in the field of public health, focusing on policy research and advocacy. She currently manages and leads a program on Antimicrobial Resistance (AMR) at the Centre for Science and Environment (CSE).*

*In her talk, she hopes to inspire young women to bravely venture into uncharted territory by highlighting parallels from her own professional journey. An alumna of Delhi University, Indian Institute of Management and Indian Institute of Technology, she has experience and training in chemistry, microbiology, and management, which she has been able to leverage to influence and inform on public health needs as well as their implications related to AMR.*

*Her motivating journey exemplifies the satisfaction that comes from being able to successfully pursue what one enjoys and considers valuable, backed by perseverance along with mentorship and support.*
