Teacher Training workshop on **Mathematics in Nature** **Let's Take it into Our Classrooms!**

Friday, 7 August, 2026

4:00 pm to 5:00pm (IST)

Online Workshop

Mathematics is everywhere in nature! From the spirals of sunflowers and pinecones to the symmetry of flowers, honeycombs, shells, and branching trees, the natural world offers fascinating ways to explore mathematical concepts.

Join this interactive session to discover how nature can make mathematics engaging, meaningful, and enjoyable. Explore hands-on activities, real-world examples, and classroom-ready ideas that connect patterns, symmetry, geometry, measurement, and problem-solving across different grade levels.

Free of Charge

Open to educators
& STEM enthusiasts

'Certificate of participation' given
upon fulfillment of the criteria
