

One-day hands-on Teacher Training Workshop

Life Across Scales

 Tuesday, 25 August 2026  10.00 AM to 5.00 PM  Agharkar Research Institute, Pune

ABOUT THE WORKSHOP

Designed for teachers from rural Pune and adjoining districts, this immersive workshop explores the hidden world of life through five levels of magnification from a hand lens to the Scanning Electron Microscope (SEM). Participants will observe the same biological specimens at increasing resolution, guided by ARI scientists.

TRAINER

Dr Karthick Balasubramanian
(Scientist E, ARI)

KEY HIGHLIGHTS

1. Hands-on use of advanced instruments: confocal microscope, SEM
2. Stepwise exploration of specimens (diatoms, pollen, insect parts, tissues) across magnification levels
3. Low-cost classroom demonstration techniques teachers can replicate
4. Interaction with ARI scientists and peers
5. Certificate of participation provided

Register now

Limited to 50 seats only
